

Central Equipment Enclosure

Cat. 6888

DESCRIPTION

Jeron Central Equipment Enclosures are used in the Nurse Call Systems to house the central equipment. They support and protect the equipment and secure the conduit.

EQUIPMENT

The heavy gauge cabinet has welded steel construction with a durable baked-on beige powder coat finish. Hinged cover has one-piece piano hinge and tumbler lock with offset cam. Equipped with four threaded studs and nuts on back of enclosure to accept equipment subplate for various Jeron Nurse Call Systems.
